Mr. Jim Paton
Breast Cancer Prevention Fund
Post Office Box 1508
Everett, Washington 98206

January 30, 2009

Dear Mr. Paton:

On behalf of all the women the Washington Breast and Cervical Health Program serves with donations from the Breast Cancer Prevention Fund, we thank you and your team for the continued hard work and dedication that has gone into raising the \$900,000 we have received since your organization began granting funds. We also thank all of the people who donated.

As you know, we have a system in place to serve uninsured or underinsured women, ages 40-64, throughout the state. With your most recent generous donation of \$150,000, we will now be able to expand our reach to younger women who are in need of breast health services.

We are grateful for all your support and look forward to a continued partnership with you and your organization.

Sincerely,

Pama Joyner,
Unit Director

Cancer Prevention and Control Unit
Washington Breast and Cervical Health Program
